PROFILE

Aspiring Data Science professional with strong skills in Python, SQL, and Exploratory Data Analysis (EDA). Experienced in cleaning, analyzing, and visualizing datasets using Python, Power BI, and Excel. Currently learning PySpark and cloud fundamentals to strengthen data engineering capabilities.

EDUCATION

Technocrats Institute of Technology <i>B.Tech in Information Technology (CGPA: 7.88)</i>	Bhopal, India 2022 - 2026
Ram Lakhan Singh High School <i>Higher Secondary Education (HSC) — 73%</i>	Bihar, India 2019 - 2021
Patmer School <i>Secondary Education (SSC) — 72%</i>	Bihar, India 2018 - 2019

PROJECTS

NLP Multi-Task Web Application | *Python, Flask, HTML, CSS, SQL*

- Developed an NLP-based web application that allows users to perform multiple text analysis tasks through an interactive interface.
- Implemented sentiment analysis to classify user-provided text into positive, negative, and neutral sentiments.
- Built keyword and text extraction features to identify important terms and analyze domain-specific content from paragraphs.
- Designed and developed frontend pages using HTML and CSS for seamless user interaction.
- Integrated database functionality to store and manage user inputs and analysis results efficiently.

Online Course Analysis Dashboard | *Python, Power BI, Excel*

- Cleaned and analyzed EdTech datasets using Python and Excel.
- Built an interactive Power BI dashboard highlighting course trends and instructor performance.
- Identified learner behavior patterns to support data-driven content planning decisions.

Movie Insights Analysis | *Python, Pandas, NLP*

- Developed a content-based movie recommendation system using NLP techniques.
- Analyzed 5,000+ movie descriptions, genres, and cast details.
- Improved recommendation accuracy by 20% through feature engineering.

TECHNICAL SKILLS

Programming: Python

Frameworks: Flask, FastAPI, PySpark

Data Analysis: Pandas, NumPy, Data Cleaning, Matplotlib, EDA, ETL

Visualization & Tools: Power BI, Excel, Git, VS Code, Jupyter Notebook

Databases: SQL Server, PostgreSQL

CERTIFICATIONS

Introduction to Data Analytics — IBM (Coursera), Mar 2025

Excel Basics for Data Analysis — IBM (Coursera), Mar 2025

Python for Data Science, AI & Development — IBM (Coursera), Sep 2025

Data Visualization and Dashboards with Excel and Cognos — IBM (Coursera), Dec 2025

Databases and SQL for Data Science with Python — IBM (Coursera), Jan 2026

Python Project for Data Science — IBM (Coursera), Jan 2026

IBM Data Analyst Capstone Project — IBM (Coursera), Jan 2026

ACHIEVEMENTS

- Solved 200+ coding problems on CodeChef.
- Regularly practice algorithms and problem solving.
